

I STRONGLY oppose the extension of mail in voting & changes to mail in eligibility (SB 184). I understand there will be a public hearing tomorrow, Friday.

As we know, many CT voters have no desire to vote, have never voted and will likely never vote. They just do not realize the sanctity, the importance of what I deem to be our most sacred right as CT residents and Americans. Many of these people will toss their ballots in the trash like junk mail. Many will give their ballots to family members or friends to cast the ballots in their stead. Some will even "SELL" their ballots for cash or whatever barter. Thus, tens of thousands, probably more votes will be cast by people voting multiple times.

CT must protect the integrity of our elections, otherwise our Democracy is in danger of collapsing as a result of activist taking control and deciding our elections.

Please help support LEGAL CT voters and help maintain the integrity of our elections.

Kind Regards,  
Chris DArco
